Experience

Celebal Technologies

Jun'23 - Aug'23

React Development Intern

Certificate

- Developed a weather web app using React.js with MUI for increased performance.
- Developed a functionality that will automatically fetch the current location to forecast the weather, and added features like 'Save favorite location'
- Getting my hands on Version Control System(Git), Package managers, and Software Development Life Cycle.

Steel Authority of India Limited (SAIL)

June 2023

Industrial Training Intern

Certificate

- Explored how industries use Computer Science Technologies to deal with modern technical problems.
- Engaged in targeted 30-60 minute sessions per department, combining theoretical knowledge with practical problem-solving skills.
- Explored Data Center, Networking, Payroll Systems, Process Control, Risk Management, and Security standards.

Projects

Cloudie - Weather web app 📄 🌐 | ReactJS, Weather API

July'23

- * Cloudie is a live weather forecasting web app that can automatically fetch the current location and forecast the weather it also has a search functionality, one can save the location and convert the temperature.
- * Implemented a dynamic React interface enabling seamless user experience with real-time weather forecasting.
- * Users can convert the temperature unit and save their favorite location.

My Portfolio website 📄 🌐 | HTML, CSS, JavaScript

June'23

- * This is my minimalist, clean, and interactive portfolio.
- * I made this using HTML, CSS, and JavaScript and added smooth animation for a seamless experience.

Restaurant Landing Page 📄 🌐 | HTML, CSS, JavaScript

Sep'21

- * Developed a modern landing page for a restaurant.
- * I made this using HTML, CSS, and JavaScript and added smooth animation for a seamless experience.
